*Applicants can be pursuing any major field of study and must be a Member in good standing to be considered.

Planning a Summer Getaway

We have some tips to make your vacation stress free.

TAKE US WITH YOU. Use your ATM and Debit Card to get cash surcharge-free at thousands of participating ATMs nationwide. Members receive 8 pin-based transactions each month with no fees when minimum requirements are met.

GET ACCESS AND REWARDS. Our VISA Credit Card is accepted almost everywhere and with rates as low as 9.40% APR, you'll avoid the high interest rates charged by other credit cards. Plus, you can earn ScoreCard points on all of your daily purchases.

CALL ROBYN BEFORE YOU LEAVE. Our Fraud Department watches for irregular transactions on your Debit Card and will deny those made outside your normal use. Call Robyn at 216-920-2000, ext. 1000, to update your account so your vacation purchases don't get blocked, and your account stays secure.

VISIT A SHARED BRANCHING LOCATION. You have access to over 5,000 credit unions located across the US where you can complete most regular transactions. Plus, Shared Branching provides access to a network of 30,000 surcharge-free ATMs. Please remember you'll need to provide a valid, government-issued photo ID, along with your credit union's name and account number, to complete a transaction at a Shared Branch location.

Visit eatonfamilycu.com to use our locators to find ATMs and Shared Branching locations wherever you travel, or call 216-920-2000 to speak with a Member Service Representative.

Youth Month

April is Youth Month

Saving money is one of the most important aspects of having a secure financial foundation. There are ways to empower the next generation, and that starts by teaching children the importance of saving from a young age. If you are a parent, here are some easy ways to teach your children about saving money.

- **Start the conversation:** Money doesn't have to be scary or a taboo. Use financial discussions as teachable moments.
- **Lead by example:** Children learn by example, so the best way to teach your child about saving money is to save money yourself.
- **Open up a youth savings account:** Take your child to credit union bank to open up a savings account for them. Have them count how much money is going to be deposited, so they can have a physical understanding of how much money they have.

Teaching kids how to save money is an investment in knowledge which truly pays the best interest. Visit our website for more information on our Youth Savings Accounts.
